

# ORBIS

CONSTRUCTION SDN BHD

*"Built with Clarity. Delivered with Care."*

Company Portfolio · Klang Valley, Malaysia

# ABOUT US

Orbis Construction Sdn Bhd intends to operate as a general building contractor focusing on private construction projects across the Klang Valley.

Our scope includes building construction, renovation works, pad footing and foundation works, reinforced concrete and structural construction, architectural building works, civil works related to buildings, plumbing and sanitary works, and mechanical and electrical (M&E) coordination.

Structural, architectural, and engineering designs are prepared and endorsed by qualified third-party consultants where required. Orbis focuses on construction, project management, site supervision, coordination, and execution to approved drawings and specifications.

***Practical construction. Clear coordination.***

@ORBIS CONSTRUCTION

## BUILDING & FOUNDATION

Pad footing, reinforced concrete, and building construction executed to approved drawings.

# RENOVATION WORKS

Practical residential renovation and refurbishment — clear scope, careful finishing.

# OUR FOCUS

We build for private clients in the Klang Valley — houses, renovations, and building-related structural works. Our near-term priority is pad footing, foundation, and general building construction, with renovation capability supported by practical site experience.

## PRIVATE PROJECTS

Owner-driven construction and renovation, delivered with clear communication.

## KLANG VALLEY

Site presence and coordination centred on Greater Kuala Lumpur.

## CONSULTANT PARTNERS

Drawings and PE endorsement via qualified third-party consultants where required.

## GROUNDING EXECUTION

Construction, supervision, and coordination aligned to approved specs.

@ORBIS CONSTRUCTION

# WHY CHOOSE US?

## CLEAR SCOPE

Building, renovation, foundation, RC, plumbing, and M&E coordination — defined for private works.

## HONEST STRUCTURE

Design endorsement by qualified consultants; Orbis owns construction and site delivery.

## PRACTICAL TEAM

Mechanical engineering background with renovation and construction site experience.

## CLIENT-FIRST

Straightforward communication, tracked timelines, and quality-focused execution.

## COMPLIANT PATH

Works aligned to required approvals and appropriate specialisation codes.

## LOCAL DELIVERY

Focused on Klang Valley private projects with accountable site supervision.
